

5th October 2011 (e-mail)

Dear Parents,

Mrs Billcliff is holding a Maths Morning for Atholl N/K parents on Thursday 17th November from 8.30-9.30am. During this event, parents will have an opportunity to handle the Maths equipment in the playroom and hear about the N/K Maths Story sacks, which the N/K team has put together.

I am organising another Maths Workshop for Atholl N/K - AP 4 parents next term. This will be held one day after school at 3.15pm. Workshops in the past have been on 'Subtraction using Decomposition' and 'Fractions'. I can cover one of these areas again or you might be interested in another area of your child's Numeracy/Maths curriculum. During the workshop, you will be involved in practical activities, similar to those your child is involved in at school. If this workshop is of interest to you, please complete the pro-forma below.

Yours sincerely,

Jean McMorran,
Head of Atholl
