

TGA TED TALK CHALLENGE

2020-21

From September 2020 Pupils in S1-S6 have the opportunity to record a talk of between 3-5 minutes and upload it onto the Super-Curriculum TEAM. This will then be published through the Super-Curriculum intranet site.

There are three categories you may opt for:

- **Science & Technology**
- **Global Issues**
- **Arts & Humanities**

Talks should be well researched and based around answering or responding to a question.

You may talk over a power point presentation or simply present a short talk.

You may also opt to make a short video/ film and record your narrative.

You can do one on your own or as a pair/ group.

Talks may be uploaded anytime and, given the categories, you may be a talk on almost anything.

Speak to your Form tutor and relevant teachers about your talk

Submitting a TED talk will result in house points being awarded

The more entries from a Tutor Group = more House points

From January 2021 there will be a competition where TGA pupils vote for the best talk.
